

Solarize Montco

At our first meeting on April 20th, there was much enthusiasm to develop Solarize Montco.

As a next step, we have decided to have recurring meetings on alternate Tuesdays at 4pm. Please [register to get a link](#). All we ask for is your email address and the town you live in, even if not in Montgomery County.

Several on the initial call already had solar. So we also plan to discuss how to support local outreach efforts in each town — say, for instance — Solarize Springfield.

We are neighbors with solar on our rooftops, eager to help other neighbors make the decision. Solarize Montco is in partnership with area installers. Together, we will make the transition to clean energy easier for our neighbors.

If you would like a solar assessment of your roof, please share your address via this form

solarizesepa.com/contact.

If you simply have a question about solar in Southeast PA, or would like us to review a proposal you've received, please write to Meenal & Marion at

solarizesepa@gmail.com.

Solarize Montco is a project of [Solarize Southeast PA](#) — now in their third year supporting [Ready for 100 teams in Southeast PA](#) transition to clean energy.
